Ngo Quang Trung

UX Designer | Product Designer | UI/UX design HCM Vietnam
Ho Chi Minh City, Vietnam

Summary

As an Interface Enthusiast and Opportunity seeker, I always gravitate towards UCD (User-Centered Design).
Besides, I am also an active person for challenging myself in lots of creative contests to gain more experiences and connect with people having the same passion in Art and Technology.

When oriented as a UI/UX designer, I have a background in technology and the ability to program web applications from which I understand the feasibility of putting design into practice.
